**Phone:** +91-7208005360, 98205 10399, 022 65245366

**Address:** Plot No. PAP/A-23,24, MIDC, Mahape,  
Near Ramnath Solar, Navi Mumbai-400710

## Company Overview

Established in 2006, is an Engineering and Infrastructure service provider for global markets with core focus on:

- High Purity Water Treatment
- Industrial design & Fabrication for Chemical, Pharmaceutical, Food and Beverages, etc
- Turnkey projects in Utility Piping

Headquartered in Mahape MIDC, Navi Mumbai, WWMS has worked throughout India and has significant presence worldwide through subsidiaries in Malaysia, West Africa, and Ukraine

The company employs more than 50 staff based out of their Mahape, Navi Mumbai Factory comprising of 10 office staff, 15 engineers, professionals like gas cutters, welders, fitters, riggers and helpers

Through its network and world-wide operations, WWMS has successfully executed more than 200 engineering & infrastructural projects in India and multiple projects around the globe

WWMS constantly supports its customers by providing new technologies and processes that solve unique project challenges, meet specific industry requirements, enhance system performance and reliability, and significantly reduce installation time and costs.

## Key Team Members

**Mr.Laljee Vishwakarma:** After completing Chemical Engineering, Mr. Vishwakarma has served organisations like ONGC, Indian Navy and executed challenging High Purity Water Treatment systems. With his expertise and experience, he started Water and Waste management systems in 2006. He's actively running the business as Managing Director

**Mr.Vashitwa Mishra :** B.E, MBA, UK: Mr. Mishra has extensive sales consulting experience across industries and geographies including India, China, Europe and South America.

He has successfully completed projects in industries like Energy, Chemicals, Mechanical, Forestry before joining WWMS in March 2017 as Managing Partner and Heading Business and Strategy with a team of Five professionals

**Mr.Dinesh Gajamal:** With more than 11years of experience Mr.Gajamal has been executing on site projects with the help of his projects team comprising of Engineers, Turners, Welders ( Gas, Argon) and Fitters.

He has successfully completed projects in India as well as international geographies like West Africa

**Mr.Abrar Mulla:** With experience of more than 10 years in design and planning, Mr. Mulla heads the planning team. He is supported by two other team members constantly working on cost estimation, on-time delivery, purchase planning and Project tracking.

**Mr.Akshay Bugade: BE. Mechanical Engineer:** With a team of 5 Engineers, Mr Bugade and his team have successfully engineered multiple turnkey projects including High Purity water systems, Mixing tanks and Utility piping for multiple application areas

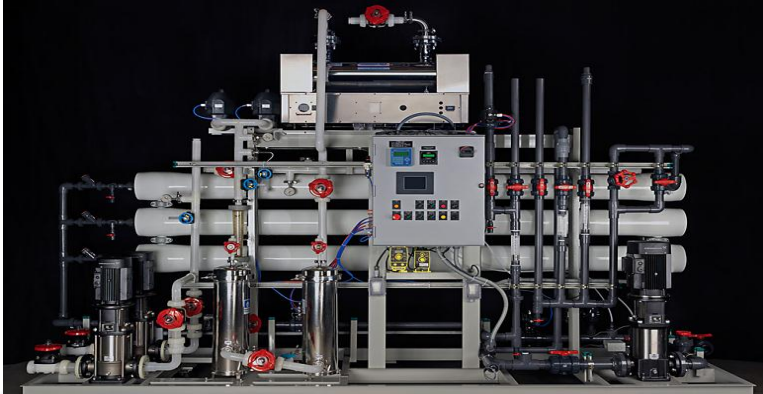

### Products

- **High Purity Water Treatment System :** RO(reverse osmosis), DM (Demineralisation plant), RO+EDI(Electro deionization plant), RO+UF(Ultrafiltration plant), UV system(Ultraviolet)
- **Storage and Distribution Systems:** Raw water/Soft water/Purified water storage tanks, Loop Line distribution systems.
- **SS Pharmaceutical Equipment's and Ancillaries:** Clean Room Furniture's, Agitators and Homogenizers, process vessel and more
- **Utility Piping:** Complete Turnkey Projects from Design to commissioning using SS, FRP, PVC, etc.
- **Sea Water Desalination Plant:** WWMS provides Sea water desalination systems and these system help in purifying sea water for drinking purpose
- **Waste Water Treatment Management:** Waste water systems like ETP(Effluent Treatment Plant) – to treat hazardous chemicals which are harmful for the environment , STP(Sewage Treatment Plant) – to treat sewage which are disposed from toilets etc and is used for gardening and many other purposes. We also provide Post ETP recycling plant like ZLD (Zero Liquid Discharge)

### Services

- **Detail Engineering:** Structural drawings, conceptual design, Pipe design, Instrumentation, Instrument design and Automation
- **Operations and Maintenance:** Replacement of cartridge filters. RO membranes, Pumps, Valves, Meters on contract basis, Asset management
- **Turnkey projects:** Execution of Projects from Concept to Commissioning

## Product Gallery

High Purity Water System [RO(1-50m<sup>3</sup>/ hr ) ,DM/RO+EDI(1-10m<sup>3</sup>/ hr)/UF]

Waste Water Treatment [ETP/STP (1KLD-50KLD)]

Utility Piping (SS/MS/GI/PVC/HDPE/PPRC)

## Product Gallery

Homogenizer SS 316L

Clean Room Furniture (SS 304,316,316L)

SS 316 Storage Tank

Case Study: RO + EDI of 5 m<sup>3</sup>/hour

**Alembic Ltd**

**Location : Gujarat**

**Plant name : RO + EDI , Distribution system ,  
350m piping, 2 x 5kl and SS Tank**

**Capacity: 5m<sup>3</sup>/ hr**

Actual Site Image at Gujarat

Project: ETP of 10 KLD in MIRAJ

Rejuvenating Lives....

HEALTH LINE

**Healthline Pharmaceutical**

**Location : Miraj**

**Plant name : ETP-Activated Sludge Treatment**

**Capacity: 10KLD**

Actual Site Image at Miraj

## International Projects: Ukraine and Togo

### **HIMALAYAN INTERNATIONAL LTD**

Location : Ukraine

Plant name : PW generation+distribution system & storage system

Duration : 2months

Man power : 1 Senior engineer 6 Technicians

### **SPRUKFIELD-UK**

Location : Togo(West Africa)

Plant name :Turnkey project,PW water system,utility process piping, SS furniture, ETP(30KLD), chimney,tanks,mixing vessel,industrial drain piping

Duration : 4months.

Man power : 1 Senior engineer + 7 Technicians

## Client List : High purity and Waste Water

**Zydus  
Cadila**

**WOCHARDT**

**TAJ**  
Hotels Resorts  
and Palaces
